VI. FCC Information

FCC ID:Y9TN1196

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1)

This device may not cause harmful interference, and (2)
this device must accept any interference received,
including interference that may cause undesired operation.

The user's manual or instruction manual for an intentional or unintentional radiator shall caution the user
that changes or modifications not expressly approved by the party responsible for compliance could void
the user's authority to operate the equipment. In cases where the manual is provided only in a form other
than paper, such as on a computer disk or over the Internet, the information required by this section may
be included in the manual in that alternative form, provided the user can reasonably be expected to have
the capability to access information in that form.

VII. RED Information

1. Declaration Of Conformity

We, SHENZHEN HANGSHENG ELECTRONICS CO.,LTD

OfHangsheng Industrial Park, Fuyuan Yi Road,Heping Village, Fuyong Town,Baoan District,Shenzhen ,
China

Declare under our sole responsibility that the product

Product Description:-----E-Canter Navigation-----

Brand Name: -----N/A-----

Model No.: -----HS-N1196-----

Product Identification Element: -----HS-N1196-----

(Detailed description of product including name, type, model and supplementary information such as lot, batch or serial number, sources and number of items)

to which this declaration relates, is conformity with the following standards and/or other normative documents

EN 300 328V2.1.1(2016-11)

EN 62479:2010

EN301 489-1 V2.1.1(2017-02) Draft EN 301 489 -3 V2.1.1 (2017-03) /

VIII. FCC Caution

1. Labelling Requirements

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2. Information To User

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

3. Information To The User

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference

will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
